

Dear Amanda and Rob,

There are not enough words to THANK YOU for donating your time, expertise, products, etc., for the comfort of the animals at the SPCA. From the installation of a new A/C unit, to the cleaning of old units (to what appears to be nearly new condition), installation of new duct work in the attic, a new thermostat, the expertise of Rob and his staff, to the service contract and all the numerous other tasks you performed!

Your staff was extremely courteous, efficient, and worked in the most unobtrusive manner as possible, allowing the shelter to run smoothly as they did their work. They kept us up on what they were doing throughout the day. It was obvious they were also mindful to keep the stress level down for the animals, of which we greatly appreciate.

Due to the kindness and generosity you have shown the SPCA, our animals are in a much more comfortable environment. The air quality is noticeably better to us as staff and volunteers, and even though they don't know why, I am sure our residents feel it too. Everything seems so much fresher now! It is evenly cool in every room housing the animals. You have provided the shelter a priceless service.

As we said at the beginning, there are not enough words to THANK YOU, but please know we all are ever so grateful for the generous, amazingly kind, wonderful gift you have provided for these very special cats, kittens, puppies, and dogs. If only they could speak!

With Absolute Respect and Gratitude,
SPCA of Hernando County
